

Additional planning notes for dishwashers with flexible hinge – DF 480 / 481 (F)

For cut-out heights from 32 3/32" to 33 27/32", in most cases, the Euro Tub dishwasher must be planned, regardless of the toe kick height.

For cut-out heights from 34 2 3/32" to 36 1 9/32", in most cases, the Tall Tub dishwasher must be planned, regardless of the toe kick height.

If the cut-out height amounts between 34 1/16" and 34 7/16", please note: Whether the Euro Tub dishwasher or the Tall Tub dishwasher can be used here depends on the toe kick height.

If the installation of a dishwasher with flexible hinge is necessary or not depends on several factors.

The door panels cannot be used with dishwashers with flexible hinge.
