Planning notes

If using the VL200 downdraft for ventilation, the Vario electric grill must be placed between two VL downdrafts. Recirculation is not recommended for the electric grill.

Appliance can be snapped into the countertop from above.
A minimum clearance of at least 8" (200 mm) from adjacent heat-sensitive cabinet or contact surfaces must be observed or thermal insulation fitted.
Appliance weight: approx. 37.5 lbs (17kg).

Rating

Rating: 3,000 W
Minimum fuse protection: 16 A
Electrical: 208 / 220–240 V / 60 Hz
Electrical connection:
Hardwire required, 59" cable length.
