Information about installation

The filters come preinstalled in the appliance and can only be taken out from one side. If required by the installation situation, you can fit the filters on the opposite side so that they are still accessible following installation.

- 1- Loosen the screws on the filter covers on both sides (A). Remove the filter covers (B).
- 2- Carefully remove the filters with both hands (C).
- 3- Insert the filter on the opposite side. Secure each one using three straight-knurled nuts.
- 4- Use three straight-knurled nuts to secure each filter cover to the filter openings that are not in use.
